2 April 2002

Dear Bob,

Now that most of the works that we have undertaken in the last 9 months are coming to completion and the new College begins to map it's own different route for the future it is time to note the significant progress made in bringing the college's premises back towards a safe and usable condition.

Please pass my thanks to all your staff for the quite excellent support that they have given to the operation of the Estates function whilst I have been with the College – I am also aware that Willfield have given many years professional support to Ealing Tertiary College before my time.

Willfield have picked up and run with the broadest range of tasks from the smallest maintenance items, most of which were resolved within 24 hours, through emergency building closures at Southall, extensive works on electrical services on all sites and the major upgrade of fire prevention measures, again on all sites. That is truly a flexible response, which was taken on cheerfully as 'our problem' on the very many times both Les Nash and I called you out with a cry of 'I have a problem'.
.....

All your staff have contributed to the advice and assistance in finding the right solution for the detailed work on site, help that I greatly value as a client, and have professionally and speedily resolved our many problems which were caused by a serious neglect of the maintenance of the Colleges properties over the years.

With many thanks and best wishes for the future

Regards

Peter Topping
